

Word – **"Great Cataclysmic Upheaval is Coming"**

P#08-1

Re: Dramatic change

July 9, 1999

At 4:25 am, on July 9, 1999, I heard:

"Great cataclysmic upheaval is coming, the likes of which man has never seen or will see again. I will shake the heavens and the earth and this will shake the institutions of the world. In that day, no man will stand; no man will deny that it is the Lord who does such things. All will see that it is the Lord but not all will turn to the Lord God Almighty. Prepare your heart for the days that are coming."

Postscript 01/2012: I found this word in my journal. Since then, the world has truly seen several major cataclysmic upheavals, such as earthquakes and tsunamis that have shaken parts of the world and their institutions. We have even seen great shaking of man's institutions, apart from the shaking of the earth, especially in the financial realm.

The closest event to this word is the quake that hit Japan in 03/2011 that led to the meltdown of several nuclear reactors. This was an earthly shaking and an institutional shaking from which Japan has not recovered. This one may yet manifest itself in the worldwide financial realm as well.

However, to date, it appears that the world has yet to experience a single event (or perhaps, a series of back-to-back events) that exactly fits the above word.
