Re: Natural Disaster Coming

June 23, 2009

June 24, 2009

At 11:11 pm, on June 23, 2009, I heard: "**disaster, a real disaster.**" I was caught by the number **11**, which can mean "**disorder and disintegration.**"

A double 11 could indicate a greater intensity of its meaning.

At the time, I wondered if this is going to be in the physical realm. Strangely, the next day, on June 24, 2009, I heard two words separated by minutes.

At 6:16 am I heard: "**Stand.**"

Then, at 7:10 am, I heard: "**Without fear.**"

Together, the word came as: "**Stand, without fear.**"

Perhaps this word will have much greater significance during June of a future year. To me, the word *disaster* indicates something in the natural realm. To be sure, we have many of them, but I suspect this one will be on an order of magnitude greater than any the modern world has seen to date.

Transcend time!
