

Your message burns in my heart and bones, and I cannot keep silent.

September 8, Wednesday (Dream)

Something significant is going to occur in a year that September 8th falls on a Wednesday.

On June 26, 2003, I had a four-part dream with a vision within the dream that is just as vivid today as it was then. Here it is (with some commentary):

Part 1—I was repeatedly singing the words ***holy night, all is calm***, from the song **Silent Night**. I sensed that **the return of our Lord Jesus** would occur on a calm night set apart, sanctified (holy) by the Father. (I very rarely sing in my sleep. Actually, I only recall this happening twice in my life. Of course, *Silent Night* has to do with the birth of Jesus. Is a birth on the horizon? Could it be a first fruits type of harvest?)

Part 2—Then, I saw a paper like an affidavit slowly moving across my vision as if on a movie screen. I saw the date **September 8** scroll across the screen. There was no year attached to it. Then I saw the word **Wednesday** scroll across the screen.

Part 3—Then, I saw myself with a group of people and two brothers in Christ that I know. In a vision (within the dream), I saw the Lord coming and I announced it to the others. (If I personally have one calling, it is in the realm of the second arrival of Jesus—something I have held onto and proclaimed for nearly 40 years. Actually, it will be 40 years in 2021.)

Part 4—Then I saw people in the shadows or dark places of a room; they were coming out of darkness approaching us and, as they did, they prostrated themselves before us. I was given the impression that they were being drawn out of darkness by the spirit of God, as we stood in the light.

Over the years, I have felt that the scrolled date is central to all the parts of the dream and together they have something tremendous to do with the coming of the Lord. To reiterate, September 8th must fall on a Wednesday—a combination that occurs on a repeating cycle of 6 years and 11 years (with leap year exceptions). From 2003, the years are 2004, 2010, 2021, 2027, 2032, 2038, 2049, etc. As of now, two of these combinations have passed with no *apparent* events occurring during these years that coincide with this date, and we are very close to the next one in 2021.

For those who believe the coming of the Lord will coincide with the Hebrew fall feasts of trumpets and tabernacles (booths), 2021 is rather interesting. Trumpets or Tishri 1 falls on Tuesday, September 7, and Tishri 2 falls on Wednesday, September 8. Looking forward in time, this is as close as it gets (at least in my expected lifetime.) Some might say that 2021 doesn't quite line up with the feasts. But let's not be so hasty in our judgment. The Hebrews designated two days for trumpets, since they were looking for the first sliver of the moon. If it were an overcast night, they might have had to wait until the next night to blow the trumpets—thus, Tishri 2. We need to keep in mind *the law of the second order* that is discovered throughout scripture. *He takes away the first in order to establish the second* (Hebrews 10:9). Could we be looking at the second order in our interpretation? Naturally, this only applies if one believes the fall

feasts are integral to the Lord's arrival to meet His people in clouds in air as they receive spirit-animated bodies (new booths).

It does seem that the dream follows a chronological order. It starts with a calm night and a song we all recognize as speaking of the birth of Jesus. Is another birth in view; this time of a people birthed into new creation bodies? Of course, night could signify spiritual darkness and calm could signify that the world is comfortable with this darkness. Given all that is going on in the world today, most would agree that a darkness has settled upon the nations—a word that has come to me more than once over the last decade. So, part 1 could be the set-up for what follows on Wednesday, September 8. If this is intended to coincide with the fall feasts, then this is tremendously significant, to say the least. But is it what we hope it is, or is it an event (spiritual or natural) that sets in motion other events that lead to the ultimate arrival of King Jesus? After all, part 3 announces the coming of the Lord. Finally, part 4 indicates a dramatic change as people come out of darkness, bowing down to ones in light. Is this a sign of a fully manifested anointing welling up from within the Lord's people at the end of the age or, better still, the resurrection and transformation of His people, having put off mortality and having put on immortality, taking on spirit-animated bodies? Saints in light!

What about the upcoming year 2021? Are there any other indications that the world is heading toward some climactic event? I have written (recently updated and re-posted) on the three 7-years cycles that comprise a 21-year cycle that ends in 2021. Interestingly, I have read predictions by others from a number of disciplines (not just Christian prophecies, but financial, political, civil) that indicate the world is coming to a climactic point in 2020-2022. On the other hand, I have seen a number of predictions that the year 2032-2033 is going to be quite significant. For the tabernacles crowd, Wednesday, September 8, 2032 doesn't quite line up with Tishri 1, as it falls on Tishri 3, but it is in the neighborhood, so to speak. Perhaps, God is going to change things up a bit to surprise all of us.

In reviewing past writings, I was reminded of a word that I believe came to me from the Lord twelve years to the day after I received this dream. It was on June 26, 2015, and it was about the presence of King Jesus and seismic change. We are living in a time of seismic change that, I believe, will culminate with the arrival of our beloved Jesus. His arrival alone will be seismic on an order this world has never seen. Glory to God! This word has been updated and re-posted.

I make no definitive predictions, at least at this point; I just offer possibilities. If anyone has any specific insight or word from the Lord in this regard, I would be most interested.

Only the Lord knows how this will all play out. Given this, my sole purpose in posting these insights is to raise the expectation (hope) of God's people to the coming of King Jesus. We don't know when He will arrive. But, He will; we can be sure of this. Until then, we wait expectedly and patiently for Him.
