

THE UPWARD CALL

*Brethren, I do not regard myself as having laid hold of it yet;
but one thing I do: forgetting what lies behind and reaching forward to what lies ahead,
I press on toward the goal for the prize of the upward call of God*

IN CHRIST JESUS.

(Philippians 3.13-14 NASB)

#02-08131

OCTOBER 17, 2008

THE TITANIC AND WATERLOO

Previously, I have testified that on February 27, 1995, the Lord gave me a very clear word: “**When you see the structures crumble, testify of My kingdom.**” When I saw the twin towers of the World Trade Center crumble in one hour on September 11, 2001, I instantly knew that this word pertained to what all of us saw unfold in that infamous day. The towers symbolized the economic might of the US and, as I have come to see more recently, the world economic/financial system, which is mystery Babylon. In 2001, the structures were literally physical structures, but exactly seven years later, we are witnessing the very system that the towers represented crumble. The structures or, if you will, the institutions and the systems that hold them together have been steadily crumbling since around July 2007 until it all seemed to come unhinged in September 2008, leading to massive fear and panic throughout the world as trillions of dollars of wealth grew wings and flew toward the heavens (Proverbs 23.4-5).

Simply, the structures are crumbling before our very eyes and nothing will stop their complete downfall, for they must fall according to the time fixed by the Father’s authority. Consequently, it is no coincidence that I was given this word over 13 years ago, and it was first manifested in September 2001 and then manifested in greater measure 7 years later in September 2008.

For nearly 100 years, the US, in particular, and the world, in general, have been yoked to this system that has begun to teeter and totter as if it is ready to fall to the ground. At this point in history, all eyes seem to be glued to what the US Stock Market, as well all the world markets, are doing from day to day. It is as if the whole mood of the world is based on whether these markets are up or down. The markets have also become the barometer of whether the world economy is sliding into recession or, even worse, headed toward depression. I have stated in previous issues that the Stock Market is like a hungry beast. I have no doubt it is a beast as it has seduced and enticed the world to become rich. If you want a Biblical description of this beast, then read Revelation 18. I also refer you to my article #9 titled *A Mystery, The Great City Babylon* (May 2008), as well as other issues of *The Upward Call* (i.e., #02-0884 to 02-0886; #02-0875 to 02-0877).

Again, I have shared previously how the spirit of God spoke to me that **the end has come** (#02-0872, July 4, 2008), **tumult is coming** (#02-0890, July 10, 008), and **a great storm is coming** (#02-0891 to #02-0894). By the way, “the end has come” is not a reference to the world ending but to the end of the Babylonian system to which we have been yoked. To date, everything that I have testified to has happened and people have been describing the situation using the same words (i.e., tumult, great storm). In fact, just today, I read an article about how older people are depressed because they are being “whipped around by rough seas.”

I don’t share these things to draw attention to myself, but rather, I share them out of obedience to the Lord who told me to testify of His kingdom, and this I have endeavored to do with the light He has given me. The kingdom of our Lord and of His Christ is coming. This you can take, so to speak, to the bank without fear of it losing interest. Our Lord Jesus and His kingdom are coming!

Now, I want to share some other things that have been entrusted to me.

On March 11, 2008, I had a dream of the **Titanic** sinking. It was in color, and I saw its bow rising up in the air and its classic smoke stacks jutting up from its deck as it began to sink into the sea. Following

this picture, I saw the year 1917 scroll before me and then the month of May. As I always do with vivid dreams I recorded all this in my journal but gave it little attention until this month. Frankly, I was puzzled by it. The Titanic was called by some as a nearly-invincible ship (not quite unsinkable but formidable) and was built to be part of a fleet of the largest and most luxurious ships on the sea. However, on April 14, 1912, at 11.40 pm, it struck what is called a blackberg, an iceberg that looks black in the night just like black ice, and sank shortly after on April 15.

As I did research on the ship, I discovered something very interesting that I believe is the clue to why I was given this dream. The owner of the ship was **JP Morgan**, the American railroad tycoon who was one of the wealthiest men of his time. In fact, he is attributed with having saved or rescued the national economy, in general, and the federal government, in particular, on two separate occasions. Further, he built one of the most powerful banking houses in the world. JP Morgan's company played a major role in bringing about the **Federal Reserve System**, and it became financially connected with the Federal Reserve banks. Today, JP Morgan's name is still in financial news (i.e., **JP Morgan Chase, Morgan Stanley**).

This is how I see it: The Titanic, a nearly-invincible, luxury ship, sinking into the sea refers to the financial/economic system, a nearly-invincible system of great wealth (luxury), sinking among the nations. In Scripture, the sea often represents the nations. What connects the Titanic to the financial system and luxury or wealth of the nations is its owner, the wealthy financier JP Morgan, whose company was instrumental in yoking the US economy to the Federal Reserve System, starting in 1914. The Titanic sank, and in two years, the US was yoked to a system that will eventually bring it to its knees. **Watch the next two years!** The fact that this dream was given this year on the 11th of March and 6 months later the world began to witness the crumbling of this system 7 years from September 11, 2001 is no coincidence. The number 6 is the number of man and represents his wisdom and labor, which will come up short of the mark or glory of God. This you can take, so to speak, to the bank as well.

Interestingly, I received another word that seems connected to the dream of the Titanic. At 4.40 am on October 10, 2008, I heard the words "**the battle is over**" followed by "**Waterloo**." Waterloo stands for the decisive defeat of **Napoleon Bonaparte** on June 18, 1815. Defeat came when Napoleon's elite guard lost their will to fight and retreated from the enemy. The sight of their disorder and retreat sent panic throughout Bonaparte's ranks that resulted in their disintegration. This is interesting to study, but I believe there is something more significant in this word. With some research, I discovered that with the fall of Napoleon, the financier **Nathan M. Rothschild** quadrupled his fortune and became a major monetary powerhouse, even to this day. More significantly, the **House of Rothschild** was instrumental in developing the current **international banking system** by making government bonds easily available. Another interesting fact is that Waterloo is currently the headquarters for **MasterCard International Europe** (i.e., credit).

I believe that just as JP Morgan's Titanic sank and Napoleon's army was decisively defeated, making Rothschild very wealthy, so too the world-wide financial banking system, which, in Revelation 18, is metaphorically depicted as a woman and called mystery Babylon, will decisively fall.

What about the year 1917 and the month of May? Well, 1917 is quite an interesting year, for it was the year of the **Fatima** (Portugal) visions (May 13 through October 13), the so-called apparitions of the Virgin Mary that are now idolized by so many in the world; the Russian and Bolshevik Revolution, which led to the Soviet Union; the **Balfour Declaration** (November 2) that was Great Britain's promise for a Jewish state in Palestine; and Sir Edmund Allenby of Great Britain taking control of **Jerusalem** (December 9). The last two events were significant in the rise of the present-day state of Israel. Of note is the fact that the Balfour Declaration was issued to **Lord Walter Rothschild** (a leader of British Jews) and that the **modern-day state of Israel** declared their independence on May 14, 1948. At this point, I have no specific understanding of which, if any, of these particular events are significant to our present day. However, I do see several possibilities, most notably with the Fatima visions and the state of Israel. We will have to watch world events to see which of these is manifested in some significant way in the near future. I would watch Fatima and Israel.

Be encouraged that whatever happens is a good thing, for our King and His kingdom are coming!
