### ***Dr. Zelenko—His Last Public Speech***

During the so-called *covid pandemic*, Vladimir Zelenko, a Jewish medical doctor with a love for humanity rose up to combat what he was witnessing. Through research, he developed what became known as the *Zelenko protocol* that has helped many through this crisis. From this research, he then produced an immune-boosting formula based on over-the-counter vitamins that is now marketed as *Z-Stack*. I offer this as background information only, not as a product endorsement. Each of us needs to do our own research and decide what is best for our bodies.

During this time, Dr. Zelenko, known as Zev, became an outspoken voice against medical and government tyranny, including forced vaccinations. I enjoyed watching the many interviews he gave and how clear he was in his mission to warn people, all the while proclaiming a biblical world-view of the Creator God. In one video, he called out rabbis in Israel for supporting the massive vaccination program underway in Israel. Unfortunately, Zev recently lost his battle with a long-term illness.

Weeks before he died, Zev gave his last public speech of about 30 minutes in which he continued his mission of standing against tyranny. A link (assuming it is still available) to this speech is included at the end.

Although the whole message is worth listening to, the last four minutes or so were, in my estimation, refreshing and nearly prophetic coming from a devout Jew who truly loved God the Creator.

I have taken the liberty of transcribing the end of his speech starting at the 26.25-minute mark. So that you don't miss it, he said that he didn't care if the Messiah is coming back, meaning a second time, or He's coming for the first time. It was as if all religious barriers to the one true identity of the Messiah had fallen from this man. What mattered (and still matters) is that Messiah comes to this earth to set things right. In my own words, Messiah will clear away all the cob webs of religious understanding and the great divisions this has caused. In that day, the truth will be known and the light of this truth will fill the earth. We truly are living through the most profound and critical transition in the known history of this world and of the human race. The [reconciliation of all things](#) is about to be openly manifested to all as eyes are opened to see God's king, the Lord Jesus.

Re: Mid-June 2022 Speech (Dr. Zelenko died on June 30, 2022)

(1.36-minute mark)

It may not seem like it but we are living in a privileged time. It’s not easy, but we are in the process of a transition from a world of darkness to a world of truth. The enemy has revealed itself.

(26.25-minute mark)

There’s nothing new here. You know, what they call the *new world order* is just the rebranding of the oldest world order of idolatry, paganism, and child sacrifice.

So, I want to officially announce to the whole world, I’m a globalist. I believe God is the King of kings and He has global dominion over the world. And, we need a new world order where we live by the will of the Creator and not submit to tyranny.

And then we can “build back better” a world where God wants to be revealed.

So, this is a very privileged ... era to live in because, in reality, I don’t see a natural way out of this. The Goliath ... it’s almost insurmountable. But, God can do anything He wants. And so, we need a supernatural intervention.

Let’s be blunt. We need the Messianic redemption. **I don’t care if He’s coming back or He’s coming for the first time.**

All I care is that He comes and that will resolve all the questions. But supernatural interventions are not free. We have to pay a price and the price is the reconciliation of human hearts with their Creator.

When we pass a certain threshold ... I don’t know that threshold ... but God knows ... there will be an ushering in of such truth and light and the world will be filled with the knowledge of God like the waters cover the seas. Thank you very much and God bless you.
