### ***Fourth Crisis Coming—September Like a Beacon***

As I look back on the many insights received over the years, September has offered some of the more intriguing ones. As I have shared recently, **September 8** stands out as quite a significant date for Christ's conquerors as evidenced by [Queen Elizabeth's passing](#). Truly, this is good news! As they say, every cloud has a silver lining. Stated differently: there is a negative and a positive side to every crisis, no matter how dark it might be. **The light eventually shines through the dark hour. The Light is not only the Lord Jesus Himself but also His Kingdom of Light with His saints in Light.**

Since the beginning of the 21<sup>st</sup> century there have been three major crises, each building upon the other and driving toward a climactic fourth one that is now building—many are now speculating what it might be. In my experience, more than once I have been told another crisis is coming while we were in the midst of a crisis.

From the Lord's perspective, the crises of the 21<sup>st</sup> century are part of God's plan to set humanity free from the bondage it has been under to a system that seeks total control and obedience. God so loves the world, and His only begotten Son will rescue the world, setting all free, proving the love of God for His creation.

To this end, this article is about some further signs of what is yet to come, collectively indicating the [crumbling](#) of the global system along with [civilization](#) as we have known it. In this regard, of the 12 months of the year, **September stands out like a beacon.**

If you recall, **2001** was a tumultuous time in the US with the 9.11 collapse of the two World Trade Center towers and the lesser tower of building #7. Without knowing exactly what it was, I was burdened in the months leading up to September that an event was coming that related to "watching" and the Lord's return. I was so sure of this that I told a Jewish survivor of the holocaust that it was time to turn to God. On **September 11**, without knowing what the day would bring, I was writing about this burden that had come upon me when a friend called to tell me to turn on the TV; the rest is history.

Moving forward to **2008**. Prior to 2008, I had received many warnings that indicated great change, even climactic change was coming. These warnings built upon each other until **July 2008**, when I heard and experienced in spirit: [Tumult is Coming! Wait for it!](#) Consequently, I knew something significant was coming. As if on schedule, an unprecedented financial

crisis hit the US in **September<sup>1</sup> 2008** that nearly collapsed the entire global financial system. Although the worst was behind us during 2009, the damage lingered for several years, impacting several sectors of the economy. However, on **April 13, 2009**, my day was broken into with the word: ***A crisis is coming***. This was odd because, by all accounts, the US was still in the midst of one, meaning this was only one in a series of crises. Further confirmation came during September of that year—more tumult was out in front of us. Here is what I received during September 2009 (date).

**September 2009 (date)**

***Great change is coming. What the world has seen to date is child's play. Pay attention to this month and I will reveal what is about to take place and when. Fear not! Stand! Be patient! Endure to the end!*** (9.1)

***There will be a run on the banks. Panic in the streets. Do not follow after the crowds. Wait! Your Deliverer comes!*** (9.2)<sup>2</sup>

***Bind yourself to Me; the ride is going to get rough.*** (9.12)

***The event is coming.*** (9.23)

Frankly, I had no recollection whatsoever that this word about “the event” was in my 2009 journal. It came as a surprise to me as I was writing this article. Is this a forewarning of the massive event I was told about in 2021? Obviously, there have been no runs on the banks as of yet, at least in the US. Surely, this indicates something massive will take place that will be a rough ride. Of special note, however, is that “*the*<sup>3</sup> event” leapfrogged over the pandemic which, as noted below, is the third crisis—thus pointing to a fourth one of great magnitude. Only the mature in Christ will weather this storm; adults acting like children, much like the world’s current leaders, politicians, etc. will not.

The message: let us not run with the crowd in panic and fear; let us be at peace and wait for the one who is our Rescuer. The [\*\*\*gale-force wind\*\*\*](#) of His holy spirit is building. Being bound to the Lord is the Way through it. Stand firm in the Lord, unmoved in the midst of the storm.

---

<sup>1</sup> See: [\*\*\*139 Years Ago; Trouble Started\*\*\*](#).

<sup>2</sup> As I write this, I am reminded of a **July 2011** dream in which I saw a **McDonald’s Happy Meal** consisting of a measly-looking burger, no bun, only a piece of thin meat with a lot of filler—not very appetizing. Combine this with a run on the banks and it paints a bleak picture. Depression?

<sup>3</sup> Use of the definite article *the* rather than the indefinite *an* stresses uniqueness. It is like saying “*the* big one is coming.”

Up to this point, all of this reinforces the idea that September serves as a beacon—a month to take seriously. But, hold on; there is more evidence to make the point.

Moving forward to **2019**. On **September 11, 2019**, I woke with a sense of [urgency](#) that something was in the air, so to speak. However, I had no awareness that the day was the 18<sup>th</sup> anniversary of the infamous day now referred to as 9.11. Over the next few months, I was burdened that there was something “urgent” on the horizon. Then, early in 2020, the pandemic hit the entire world roughly eleven<sup>4</sup> years from the crisis of 2008-2009. There was a global urgency to bring this pandemic under control as many began to fear and panic. Authoritarian powers responded with lockdowns and other draconian measures that need not be replayed here. The point is that there was an urgency “to do something,” anything to make it go away. By many measures, especially the number of deaths and great economic loss to small businesses, this crisis exceeded the first two. However, even in the midst of this third crisis, as in the second one, I kept hearing and reporting that this one would be followed by another, even greater one. Interestingly, right before the pandemic hit the globe, on **December 30, 2019**, I wrote [The Perfect Storm](#). As I see it today, the pandemic was not only the third crisis but also the prelude to the fourth one that is emerging that will exceed all the crises. To top this off, in the midst of the third crisis, on **October 3, 2021**, I heard: [A Massive Event is Coming!](#) This must be “the event” that leads to the fourth crisis. Now, many in 2022 are saying that something “massive” is coming.

Needless to say, here we are in September once again. For me, the month has begun on a good note; however, searching through past insights, there are some ominous things still on the deck of the metaphorical Titanic, along with encouragements about passing through them. This leads to what I heard during September 2013, most of which has not been previously reported.

### September 2013 (date)

***Thus says the Lord, “I have come to set My people free. They are in bondage to many things and I have come to set them free from all of them. Look for the signs, for I am here to do a finishing work before the end of this age.” (9.9)***

***Fear not. The things that upset you today or catch your attention are nothing. What is coming will take your breath away, but fear not. I am with you. (9.9)***

***Behold, life is about to change for the many. Only those with spiritual sight will understand them as they unfold. (9.9)***

---

<sup>4</sup> The number **11** signifies **disorder, disintegration**. This is the negative side of all crises.

***Behold, My love extends to all the world, even the wicked. I died for the many, not the few. My compassion and love exceed the sum total of the compassion and love of My church. My love is excess love.*** (9.9)

***Behold, all the teachings about the end of the age and My return will be shown for what they are—the teachings of man, not of My spirit.*** (9.9)

***Where do you think they got their concept of the day of judgment? I gave it to them. I have blinded them to the truth just as I did 2,000 years ago with the sons of Israel. Blindness in part has come upon My people so they see not and hear not.*** (9.10)

This caught me by surprise as it wasn't a subject that was on my radar, so to speak. To be clear, the question pertained to the present-day church and its understanding (teaching) of the "day of judgment"—that, in turn, ties in with the last "behold" about the end of the age and the Lord's return. To this, I inquired: ***Why the blindness, Lord?***

***Because they would not handle it properly. They are more interested in marketing a message and a ministry than lifting up the Truth. Behold, the Truth has come upon you.*** (9.10)

***Behold, the day is coming when no man will work by His own strength; only by My spirit will any be able to work or live. Learn to live by my every word. Follow My every lead, obey My every command. Do not be restricted by theology; only My life will see you through. Theology is man's way. Life is My way!*** (9.11)

During this same year and month, I had two dreams; both indicating the fourth crisis.

The world had changed; our entire system had collapsed and people were living and sleeping in concentrated groups with very little provision. People had to watch over where they lived; all were squatters so they claimed an area with others and occupied it. I wanted to mail a letter, special delivery out of the country, and was told it could not be done. Simply, our current way of life was gone. But, some time during the dream, I stood in another place where people were staggering around. I announced: ***God is love. You might be wondering why or how this has happened but know that God is love. He loves you.*** (9.26)

We were driving on an interstate with rocky ledges along the side. The road was going up a hilly area filled with pot holes and deep ruts. I drove to avoid them. There was a large pot hole to my left and I swerved to avoid it. I then yelled: ***I have lost control.*** The car careened across the oncoming lane and avoided other cars. We ended up on a service road on the other side of the oncoming lane. A man was

**standing there, and I said to him: *The Lord saved us*. Then I looked beyond the man, who was quite tall, and saw a beautiful, bright cobalt-blue bird. (9.27)**

We might fear losing control during what is coming, but the lesson is that in God's love the Lord saves.

I was given no indication of the identity of the tall man. Sort of reminds me of those who unknowingly stood in the presence of the resurrected Jesus, such as Mary at the empty tomb or the disciples on the road to Emmaus. His tallness could indicate He stands tall (strong, courageous) over every situation in our lives. One meaning of the expression *stand tall* is "to exhibit courage, strength, or calm especially in the face of adversity". So, the tallness could have a dual meaning that speaks of both the Lord and His people. Begs for the questions: How often do we recognize the Presence of the Lord in our daily lives? How often do we who are in Christ exhibit courage in the face of adversity?

However, the tall man was not alone. It was as if he pointed to the bright cobalt-blue bird as a symbol of the destiny of the Lord's people. A bird indicates freedom, heavenly freedom. *Set free at last!* In being set free, they, at last, can serve God in untainted, unrestricted, holy spirit-driven fullness—the significance of the service road.

The color blue in various hues is generally associated with the sky or the heavens, God's throne, the holy spirit, and the river of God, to name a few. Lapis lazuli, called the *blue stone*, is a gorgeous, brilliant blue stone that, in scripture, is associated with the throne and Eden. Although not referenced in scripture, cobalt blue is prized for its richness, much like lapis blue. According to one source, cobalt blue has been in use as far back as 3400 years ago. Many colors will fade when exposed to much light but not cobalt blue—it does not degrade or fade in light. Is this not a symbol of the immortal saints in Light? We must put off this mortal in order to dwell in light unapproachable.

I charge thee ... keep the command unspotted, unblameable, till the manifestation of our Lord Jesus Christ, which in His own times He shall shew—the blessed and only potentate, the King of the kings and Lord of the lords, who only is having immortality, dwelling in light unapproachable, whom no one of men did see, nor is able to see, to whom is honour and might age-during! Amen. (1 Timothy 6:13-16 YLT)

**Thus, the beautiful, bright cobalt-blue bird is a symbol of the Lord's heavenly, immortal people set free from the system of the world who manifest in the glorious Light of the one who is the Light of the World—God's Son. Above the fray below, they soar in the Light of the World as the saints in Light, the sons of glory, shining as the sun (Son) in the kingdom of their Father. What a glorious destiny!**
