76th Anniversary of Hiroshima—A Sign (Commentary)

Around the time the Lord broke into my life, I began having unusual experiences that caught my attention. Up to that point I had never kept much of a diary but that all changed with these new experiences that included words, dreams, and visions. It's a good thing I began keeping records; otherwise, they would have been left to memory and, most likely, the pattern or continuity would have been lost. With this documented history in hand, I have been like a watchman looking out over the landscape for signs of either their fulfillment or explanation (i.e., interpretation), mostly coming from either events or posted articles (news, commentaries, blogs, etc.).

Today, on **August 9, 2021**, one such article appeared online that contained some keywords that caught my attention because these same words were part of insights that came to me over a 15-year period.

Before proceeding, please read the following from Mike Adams at *Natural News*.

[MEDICAL HORROR: Covid vaccines have now killed more people than the ATOMIC BOMB dropped on Hiroshima – NaturalNews.com](#)

Now, whether you agree with what he has to offer or not, compare his article with the following insights that I believe came to me from the Lord (links included).

On **February 26, 2005**: **[500,000 in one hour; Great change is coming!](#)** (page 7)

Comment: The expression “one hour” is best understood as a short period of time, as opposed to a literal hour. There's not much to go on with these few words, but it could be surmised that the 500,000 (whatever it is) is a signpost of great change to follow. Is it a coincidence or a sign that Mike Adams picked the number 500,000? You decide.

On **April 11, 2012**: **[Hiroshima. You will see one in your lifetime.](#)** (page 8)

On **December 2, 2020**: **[Many will die in the days and months ahead. They will die from many causes that will mostly be blamed on the virus, forcing more draconian measures.](#)** (page 2)

What pulls all this together is the fact that 76 years ago today, the last atomic bomb was dropped on Japan (Hiroshima on August 6 and Nagasaki on August 9). People still debate the morality of and need for such an action, but personally, I find this to be one of the darkest hours in the history of the United States, and it was authorized by President Truman, who claimed the name of Jesus in his life and over this nation. Yes; there were horrific cruelties during WW2, as there are in all wars, but did this justify an action that exceeded those cruelties? We must leave it to the judgment of God.

It should be noted that it was during this same time, in the 1950s, that the **military-industrial complex** began to dangerously take root, leading President Eisenhower to warn the nation of its power as he left office in 1961. Today, there are many other labels placed on this “complex”, one of which is the **deep state**, even the **deep, deep state**, some of which is overt (visible) but much of which is, more than likely, covert (hidden).

Figuratively speaking, they have a beast-like nature (one that devours)—a concept revealed through Daniel the prophet and elaborated on by John the apostle. Some call the present world system *Babylon*, which would make those of the deep state rulers of Babylon; however, it is more likely that the present global system is representative of not only the beast-like kingdoms that Daniel saw rising up but of all the kingdoms of men that have taken root since Noah or even Adam. It doesn't need a name to fit into a doctrine—it's just a beast that is animated by the flesh. It could just as easily be called the **beast kingdom of man**.

Significantly, the **number 76** signifies **blotting out** or **cleansing**. We are now at the 76-year mark since atomic bombs were first used against humanity anywhere on the earth; it was also the last time. On these two infamous days, two entire cities were blotted out. Unfortunately, this one event set off a race among the nations to develop and enhance dangerous nuclear weapons in a quest for global dominance and national security. Humanity has lived in fear of a nuclear holocaust ever since.

For seventy-six years, some have warned of a coming extinction-level event; a warning that has once again been raised, given what is going on in the world today.

This poses an important question: Are we at a point in history that we will see some event(s) comparable to a blotting out or cleansing? Obviously, with all the delusion and tension in the world today, we can't rule out the literal use of nuclear bombs. However, there are other types of events that could be labeled a blotting out or cleansing.

Three comments...

First, it is quite significant that today, on the 76th anniversary of the Hiroshima/Nagasaki bombing, the US Secretary of Defense mandates *potentially dangerous and untested experimental* injections for all the military by **September 15, 2021**. Whether one agrees or disagrees with the adjectives attached to this injection depends on what information source is relied upon and one's level of critical thinking and analysis. The propaganda media decry and censor such adjectives as "conspiracy theory" or "mis-dis-information". However, analyses coming forth from those truly trying to follow the science refute such accusations.

By the way, the argument is made by some reputable doctors that a vaccine is supposed to prevent disease; however, it is not claimed that these injections do so and data is mounting that supports this. Until the FDA approves it, these rightfully are experimental injections. Unfortunately, once approved, probably any day now, they will be deemed as "safe and effective vaccines", even though they don't prevent illness (just ameliorate it) and there have been no studies conducted on long-term health effects.

In some strange twist, is the military leadership of today, representative of the leadership that 76 years ago inflicted such horrific devastation on the lives of Japanese citizens, on the command of the president, now turning on its own to inflict a new type of devastation, on the suggestion of a ghostly president, as some macabre form of dark retribution for what occurred in 1945? Are dark forces twisting the minds of leaders to take such an action? The big question: Will the rank and file comply or defy?

Why would a nation like the US subject its major line of defense, its military personnel, to an experiment that could potentially weaken its defenses, at a time when Russia and China are strengthening theirs? It doesn't make sense, unless there is another agenda in play, one that seeks to bring down America. Many others are offering commentary on this every day now, so I'll leave it with them. My mission is to drive home what the spirit of the Lord has entrusted to me for this hour.

Second, September 15, 2021 could be significant. To explain, we need to consider the holy convocation the Lord instituted through Moses for the sons of Israel—the ***Day of Atonement***. It was a sabbath of complete rest, a time to humble their souls, a day of fasting and repentance. It was also the day the priests conducted the ceremonial ritual of the two goats that were a type of Christ's sacrifice and removal of sin altogether. The Israelites were commanded to do this on the tenth day of the month of Tishri, actually starting at sundown the day before. (See Leviticus 16; 23:26-32.)

In 2021, the *Day of Atonement* starts at sundown **September 15**, the same date for all the military to be injected with what is not designed to prevent disease. To use atonement

language, along with the meaning of the number 76, it can't cleanse one from disease, nor can it totally blot it out.

There could be a spiritual message in this.

Perhaps God is using this date and the injection to direct our attention to something He is about to do that will bring about true and lasting cleansing from all types of diseases, the greatest of which is called *sin*. He's calling a holy convocation for cleansing and healing from sin.

Here's a suggestion: today, on August 9, the spirit of the Lord has announced a cleansing is coming—the evil planned by those in darkness is going to be turned into good by God who is light. Given this, the 15th could be the beginning of a turning point, meaning ***great change is coming*** where *what man means for evil, God means for good*. Perhaps, the spirit of the Lord is going to convict the world of sin, leading to repentance, *especially* on the part of the Lord's people. Repentance must start with the house of God.

Is the corrupt deep state that has held the American people in bondage about to be forced to release Americans as the nation is cleansed from its sins? Is this when the [Cords of Falsehood](#) are finally cut, as God brings [His hammer down in one final blow](#) to the beast system that has ruled for decades? Is this our [Engedi Moment](#)?

Those who want a clear eschatology to lay hold of might be disappointed or frustrated with so many open-ended questions and conditional statements. As stated elsewhere, scripture does not lay out a clear eschatology (to be sure, a view not held by many theologians and commentators). Rather, what we have been given is the spirit of truth and, by the Lord's design, we are to trust in His spirit for clarity and direction and for signposts on the highway to the open manifestation of the Kingdom of God on earth. We must patiently endure as we seek clarity. Besides, the Lord said to ask, to seek, and to knock. It's when we think we have all the answers and have packaged it into a nicely bowed doctrinal box that we discover we have hindered the spirit of truth. We might be asking the right questions but our timing is off, which is why we need to remain fluid and avoid casting everything in concrete. In God's time, we will not only know the truth but be living examples of it.

Third, Tishri 1 and 2 (Feast of Trumpets) falls on September 7-8 (keep in mind it runs from sundown of the 6th to sundown of the 8th).

Those who have followed these insights know that September 2021 could hold the key to where we are on God's timeline, providing answers to the most pressing questions.

We are living in an evil, corrupt day as **totalitarianism** (fascism and communism combined) seeks to conquer the world through a global reset that will usher in great bondage.

Someone once said that if evil were allowed to reign in the absence of good, evil would eventually destroy itself. The reason evil exists today is because good is its restrainer. But here is the good news: it is the hour for good to fully conquer evil, for God's plan is to remove all evil from His very good creation. It must be so for His glory to fill the earth.

It's likely that from September 6 to 29 (the 23rd day), there is going to be a mighty turning point in the history of the world as light (good) and dark (evil) engage in their final battle for humanity until good finally conquers evil. Darkness will be defeated by the blazing light of the saints in light, those filled with the **Light of the World**, reflecting the very life of **King Jesus**. Come September, they will be proclaiming the coming of the Lord! (not a question)

A day is coming when, in the midst of a great rising up of evil, there will be an awakening of the Body of Christ and a filling to overflowing with the spirit of the Lord, having been cleansed and all sin removed (type of the second goat). Evil men might strive for a global reset; however, let's not lose sight of the glorious fact that God has His own plan for a reset; it's called the **Kingdom of the Son of His love**. We know who has won already!

So, as we see evil rise up in this hour and hear of all the diabolical things that might be coming upon the world, let us not fear. As the Lord told His disciples as He sent them out as lambs among wolves: **Do not be afraid!** This is no time to let down our guard; press on toward the goal! Press into the Lord Jesus!

Dear saints in light, it's time to shod our feet with the good news of peace, for the Kingdom of the *King of Righteousness and Peace* is preparing to openly manifest His reign on earth through His Anointed Body that He is going to continually fill with His life-giving spirit so that there will be constant rivers of living water flowing out into the world.

The world is about to be shocked by the great change that is coming. Here's the good news: our awakening to the reality of who we really are in Christ is coming and the world will see it and experience it, probably in the midst of great upheaval in every level of life, as all the structures built on sand crumble to dust! Be patient!

Be watchful and spiritually discerning in the days leading up to September 2021, as well as throughout the month itself. One thing is for sure: even if there are no outward signs to answer some of the questions and conditional ideas posed, the called and chosen will know in their spirit that the times have truly changed.
