### ***September 21, 2021—Man’s Global Reset (Commentary)***

On **September 21, 2021**, president Biden made a speech before the **76<sup>th</sup> United Nations General Assembly** session. The speech was not given much press coverage, even from the mainstream media that mostly said it was a “good” or “standard” speech. In other words, “nothing new or profound here, so let’s move on to the next propaganda piece that, you know, we say ‘follows the science’”. It was as if one big yawn went up from the press, and from my observation, this included the alt-media. Then, on **September 22, 2021**, Biden held a virtual summit on COVID-19 that the White House Fact Sheet titled: ***President Biden’s Global COVID-19 Summit: Ending the Pandemic and Building Back Better.***

In some measure, the media yawn is understandable because what the present president read from the teleprompter simply confirmed the intent of his administration to reengage the USA into the agenda of the New World Order globalists; something which the former president pulled the US out of based on his *America First* agenda. This objective became clear right from the start of the term of the **46<sup>th</sup>** president of the United States.

During his run for president, Biden campaigned on the slogan *Build Back Better*, and some have accused him of plagiarizing the slogan that, most notably, is part of the propaganda campaigns of the United Nations (UN) and the World Economic Forum (WEF). But wait a minute; what if it wasn’t (and still isn’t) plagiarism but a statement of support for the UN/WEF agenda to usher in a global reset (aka world takeover) with a one-world government based in technocratism, scientism, authoritarianism, and a whole lot of other ideological isms? As of September 21-22, there is not a scintilla of doubt that the use of the slogan is a neon sign flashing to Americans and the world that Biden and his handlers are fully on board with the UN/WEF agenda for a global reset with a top-down world governance that, ultimately, will lead to the **religion of satanism** ruling the world, if not for God’s intervention.

Some might argue that his speech was simply a reminder to the world that we are one humanity and we must work together toward achievement of common goals for the dignity (Biden’s word) and human rights of all. Yes, on the surface, it all sounds so good and noble until one pulls back the curtain to see the plan being proposed to achieve this. Biden announced to the world that the US is going to follow the agendas of the United Nations, World Economic Forum, World Health Organization, and Paris Climate Accord, as he, predictably, integrally aligned the covid pandemic and health security with man-made

climate change (aka warming). It matters not that, technically, the two are not related. What they have in common is the way in which they can be used—together, they heighten the level of fear as both are sold as near extinction-level events where many are going to die. Fear of death is a mighty strong motivator. Keep in mind that the strategy of the globalists is to instill the most fear possible throughout the populace so that as many as possible will acquiesce to authority and willingly accept the control of the globalists. The endpoint is the bondage of what is left of the entire world population after their evil plan of depopulation has been completed.

Why do you think masks became the poster child of protection early on? Consider this: data from real science-based studies have repeatedly found *no* evidence of their use preventing the spread of infection in the public setting! What is rather telling is that the pandemic tabletop exercises and plans that preceded the 2020 pandemic, seldom, if ever, mentioned the need to force masks on the general public as a means of protecting health. In fact, health experts, including Fauci, said masks were of no value. What changed? The powers behind the scenes realized it was a great tool for behavior modification and it worked. It's been so effective that now some parents are petrified to send their kids to school without wearing masks all day long. (Fortunately, some parents are now fighting back against this tyranny.) But it is far more nefarious than this. According to some knowledgeable people, masks are a tool of bondage, submission, and degradation employed by satanists. Without doubt, pulling the curtain back all the way will reveal that **satanism** is the force behind all forms of bondage, submission, and degradation and is the force that has put many people, including Christians, under its evil spell. This might seem a bit off point, but it isn't—it's vital to our understanding of what's at stake in this very dark day, and the current Biden administration is a part of it.

In case you have missed it, Biden, along with the likes of Bill Gates, Anthony Fauci, and establishment scientists and MDs are telling us that another pandemic is on the way (not an *if*, but a given), so don't let your fear down. In addition to this are the propaganda campaigns based in pseudo-science and manipulation of data that say the world will end soon if we don't eliminate the use of fossil fuels and dramatically reduce atmospheric carbon dioxide very soon. Thus, pandemics, health, and climate are intertwined in what is called *health and climate security* and used as one of the reasons for a global reset that builds back better. The security mantra is a convenient tool to mask their real agenda to rule the world.

Back to the speech; Biden used terms like *collective* future, *collective* strength, *collective* act of science and political will, and *collective* ambitions, along with the globalists' building back better theme. He even managed to inject the words "**violence and insurrection**" in his speech (an obvious reference to what occurred on January 6, 2021 in the illusory "people's house").

If you are wondering why the word **collective** is highlighted, consider what *isms* are based in this word—socialism and communism. Ideologically, one definition of *collectivism* describes it as “*the principle of centralization of all directive social and industrial power, especially of control of the means of production, in the people collectively, or the state: the opposite of individualism*”. In other words, the rights of the collective are far more important than those of the individual. Some would argue that there are no individual rights under collectivism.

Does any of this sound familiar to you? Well, it should, for this is what has been fed to the world, especially to the US populace, since early 2020. How about: “Give up your rights to make informed decisions about wearing masks all the time, socially isolating (the word *distancing* obfuscates the true intent), and getting shot up with an experimental genetic agent (deceptively called a *vaccine*)—do all of these things as you’re told to do by the authorities and do it for the sake of your neighbor, your grandmother... Those who don’t go along with the program are selfish and are standing against the interests of the collective.” In other words, there are no more rights for the individual. Fauci has so indicated! This is one of the tenets of the global reset planned by demonically and evilly driven globalists, both seen and unseen.

To achieve this level of collectivism on a global scale requires an authoritarianism the likes of which most of us in the Western world have never experienced. Does anyone in their right mind believe Biden and company have not been authoritarian in their actions? If one doubts so, then what does one call mandating useless masks on all modes of public transportation and in all Federal buildings, or potentially dangerous shots in the arm for all Federal workers (with some exceptions, namely Congress and the White House) and all military personnel, or OSHA being used to force companies of over 100 people to mandate shots for their employees? It’s called *authoritarianism*. Now, for the real kicker: What did Biden have to say about authoritarianism in his speech? Well, here it is...

***Authoritarianism, the authoritarians in the world may seek to proclaim the end of the age of democracy, but they’re wrong.***

By his own hubris words and actions, he is admitting he stands against democracy, unless he no longer has the cognitive skills to distinguish the two. It’s extremely doubtful his handlers don’t know the difference. This is a classic tactic used by politicians today—accusing others of doing the very things they themselves are guilty of doing while feigning some moral high ground of innocence on their part.

There’s more that could be highlighted from his speech to make the point, but now let’s turn to the summit that was held the next day. Again, here is how it is presented on the White House web site—

***Fact Sheet: President Biden's Global COVID-19 Summit:  
Ending the Pandemic and Building Back Better***

Today, President Biden convened heads of state and leaders from international organizations, the private sector, philanthropies, non-government organizations, and other partners for the Global COVID-19 Summit: Ending the Pandemic and **Building Back Better**, a virtual summit on the margins of the UN General Assembly.

The President called on leaders to elevate global ambition to end the COVID-19 pandemic in 2022 and to **build back better global health security** to prevent and prepare for future pandemics. As emerging variants have set back global response efforts, President Biden challenged the world to advance this agenda with new, focused urgency and to cooperate to rapidly advance our **collective response** to this crisis to secure our future.

**Conquering COVID-19: Measuring Progress, Collective Action, Common Targets**

Throughout the Summit, world leaders answered the President's call and embraced a set of ambitious global targets across four themes:

- **Vaccinate the World by enhancing equitable access to vaccines and getting shots in arms;**
- Save Lives Now by solving the oxygen crisis and making tests, therapeutics, and personal protective equipment (PPE) widely available;
- **Build Back Better** by preparing in all countries, establishing a **sustainable health security financing mechanism**, and demonstrating political leadership for emerging threats to prepare for and prevent future pandemics; and
- Calling the World to Account by **aligning around common global targets, tracking** progress, and supporting one another in fulfilling our commitments.

Take note of the terms building back better, health security, collective response, vaccinate the world, equitable access to vaccines, sustainable health security, common global targets. These might sound harmless on the surface, but when lined up with the goals of the WEF and UN, it becomes quite clear that even this summit was all about a global reset.

Now, to get to the heart of the matter. In a **September 7, 2021** insight ([September 2021-A Beginning](#)), I reported that **September 21, 2021 is when the reset would come**. It is no coincidence that Biden spoke at the 76<sup>th</sup> session of the United Nations on this date. Actually, he had to speak on this day in order to formally announce to the global

community that the government of the United States of America, of which he is the executive leader, is fully invested in the global reset that is being driven by the United Nations and the World Economic Forum and all the other organizations that support this global agenda. Some could argue that this is nothing new as it has been obvious for months that he intended to reengage the US into this globalist agenda. This became clear when he made John Kerry, a known globalist and supporter of the WEF agenda, his liaison on climate change. Yes, this, and much more, is true; however, on this very specific date that was given to me on **December 22, 2018**, he formally threw the US into the ring of the reset by announcing it to the world. Biden flipped the switch, so to speak, and the neon light went on saying to the rest of the globalists: "We're in, the door is wide open, come take us over."

Need we be reminded that the number **76** has a dual meaning: **blotting out** or **cleansing**. Which will it be for America? (See: [76 Anniversary of Hiroshima—A Sign](#))

Dear people of God, I'm not writing this to those of the world; I'm writing this to those who belong to the Lord Jesus, ones having the faith of the Son of God. I'm deeply concerned that some (perhaps, a good number) among us have little clue as to what is actually happening in our nation and in the Western world. Normal is gone! Abnormal is here! The political system is completely corrupted and broken. Science and medicine are in a crisis. The institutions of our nation have been infiltrated with evil ideologies, especially our schools and universities. Truth has been inverted so that lies are now masquerading as truth.

**Many have sold their souls to a hedonistic, materialistic, amoral way of life that thinks it is free but unwittingly has been sold into bondage to evil.**

**The dark forces of the religion of satanism are the real drivers of this global takeover; it is antichrist and antihuman.**

What it means to be a human created in the image of Elohim is under assault in a way the world has not seen since the days of Noah (perhaps, even more so). And sadly, many are under an evil, demonic spell that has robbed them of the ability to critically think and analyze the dangers we all now face.

O, people of God, snap out of this evil spell! Wake up! Lay hold of Jesus!

In spite of all this, there is good news. As stated in previous insights, September 2021 would reveal to us more about where we might be on God's timeline. At the start of the month, I began to see that September was about a beginning and not an end, meaning that there is more to come on the highway to the Presence of the Lord and the open manifestation of the Kingdom of God to the nations of the world. The Kingdom of the Son of God's love is God's reset!

Biden said that we are at an **inflection point** in history. One definition of an *inflection point* is a **moment of dramatic change**. Undoubtedly, the world is at such a moment right now, but whose change will prevail—man's or God's? Put in terms of a reset—will man's evil global reset or God's very good global reset prevail?

Just in case there is any doubt, **God will prevail**. What man, in concert with the dark forces, plans for evil, God plans for good; and He will not fail to rescue His very good creation and the human race destined to be in the image of the Son of God. The global reset of man will not prevail; it will ultimately fail. Guaranteed! So, going forward, keep this in mind, even as it might appear evil is winning—it is a defeated foe.

God has His own inflection point—on September 21, 2021, He announced to those with ears to hear that He has begun His reset of the global order that will ultimately prevail over man's attempt to fundamentally transform His very good creation into an abomination of darkness. Dramatic change is coming that will transform our world by immersing it in the glory of God.

It is most likely that the world just entered an eleven-year period filled with many challenges and dangers to humanity, but do not lose *the* faith—Jesus is the Victor and we are in His victory. Remember, we live by His faith—the faith of the Son of God.

As Paul reminds us:

***Yet even in the midst of all these things (i.e., trials, afflictions, perils, risks...), we triumph over them all, for God has made us to be more than conquerors (remaining continuously victorious), and His demonstrated love is our glorious victory over everything!*** (Romans 8:37 TPT/JM-NT)

The hour is getting late; it is time to wake up to the truth that is God's reality. [\*\*Jesus is the Reality!\*\*](#)

Lord willing, I'll discuss September 21 and the Anointing in a subsequent issue.
